

Additional Reading

Pages

We can replace the autogenerated login and logout pages with our custom ones. Dive into the guide below to learn how.

<https://next-auth.js.org/configuration/pages>

Events

NextAuth.js provides a number of events (eg signIn, signOut, createUser, etc) that are useful for auditing or handling any other side effects:

<https://next-auth.js.org/configuration/events>

We can provide handlers for these events as part of our NextAuth.js setup:

<https://next-auth.js.org/configuration/options#events>
